2. **FYI**

   Ms. Benson provided the following items for the Board’s information: (1) a copy of a letter from Alabama Healthcare Hall of Fame; (2) a copy of a letter from the American Association of Nurse Practitioners and the American Society of Addiction Medicine; and (3) a copy of the July 19, 2017 Aesthetics Information for Practice Committee Report.
3. **Proposed Board Meeting Dates for 2018**

Ms. Benson reported that the Board meetings are typically scheduled at the Annual Meeting in November of each year for the following calendar year. In addition to having ample advance notice of meetings, there is sufficient time to post the meetings on the Secretary of State’s website. The third Thursday and Friday have typically set aside for two-day Board meetings. (NCSBN) have been meetings that might interfere with Board meetings so the calendar of events is noted when there is a meeting close to the time of a Board meeting. In 2016 and 2017 it became apparent that the Board meetings were consistently finishing early both days and two full days were not needed to conduct board business. The Nurse Practice Act requires 6 meetings per year. Emergency meetings can be called as needed throughout the year.

On November 16, 2017, Dr. Baker moved that the Board approve the 2018 Calendar Year Board Meetings to be every other month with January, May and September meeting two days and March, July and November meeting one day. Ms. Gladys Hill seconded. Motion carried without objection.

4. **AG Opinion Report, Advanced Practice Education: Advisory Committee/Council appointment**

Ms. Henley and Ms. Benson reported that during the 2017 Regular Legislative Session, the Board advocated for legislation revising Article V, “Advanced Practice Nursing, “to include regulating Advanced Practice (AP) education programs in the State. The Board withdrew active support for the bill, pending further review and consideration. Recently, Board sought advice from the Legislative Reference Service (LRS) related to whether the current Article V statue should be construed to authorize review and/or approval of AP education programs. LRS staff related their understanding that current law gives the Board the authority to approve advance practice nursing educational programs and that all the Board needs to do is promulgate the rules. The Board sought an attorney General’s opinion to determine whether the Board had statutory authority to promulgate rules for advance practice education program approval.

The Attorney General’s opinion concluded the following:

Pursuant to sections 34-21-2CXI) and 34-21-84 of the Code of Alabama, the Alabama Board of Nursing may promulgate rules which prescribe standards and approve curricula for graduate nursing educational programs preparing advanced practice nurses.
These rules may be consistent with the procedures outlined in sections 34-21-20Q-(5) and 34-21-5 of the Code of Alabama.

The EO discussed the need to establish an educational advisory committee to work on the development of these rules for advanced practice education. Advisory committee members to include, Francine Parker and Valorie Dearmon Board Members and representatives from AP nursing graduate programs from across the state and an educational representative from a proprietary advanced practice educational program.

On November 16, 2017, Ms. Gladys Hill moved to approve appointment of Advanced Practice Education Advisory Committee and to add Dr. Baker as a Board Member to sit in. Dr. Wright seconded. Motion carried without objection.

5. ABN Election of Board Officers

Ms. Benson reported that the Board is required, by regulation, to elect officers at the November annual meeting each year. Under the Alabama Open Meetings Act, the nominations and voting are required to be in an open meeting. The minutes also must reflect the vote so Board members will be asked to raise their hands when voting for a candidate.

The Board has previously approved the ABN Disaster Temporary Permit Guideline and a twenty-five dollar fee for Disaster Temporary Permit. The new rule will formalize the process and aid in helping individuals who may accompany patients during evacuations for a period of 90 days.

On November 16, 2017, Ms. Bailey moved that the Board approve recommended change to Alabama Administrative Code 610-X-4-.16(3) Special Circumstances. Ms. Gladys Hill seconded. Motion carried without objection.
B. **Alabama Administrative Code, 610-X-5 Quorum for Joint Committee**

Ms. Daniels reported that the Joint Committee members meet every other month to consider business items which impact the collaborative practice of physicians and certified registered nurse practitioners (CRNP) and certified nurse midwives (CNM). A portion of the meeting is dedicated to the review of collaborative practice applications for approval.

As the Joint Committee is necessarily geographically diverse, the possibility exists that any given Joint Committee meeting might fail to achieve a quorum, due to absences by appointed members. The proposed change would allow either the Alabama Board of Medical Examiners or the ABN to appoint qualified substitute members to attend in place of Joint Committee members. The ABME approved this change at their meeting on October 18, 2017. The Joint Committee received this as information at their meeting November 15, 2017.

B. **Revision of Pediatric Acute Care Protocol**

Ms. Daniels reported that in February 2014 the Joint Committee for Advanced Practice Nursing approved consolidation of skills into Standard Protocols for the CRNP based on specialty certification of the CRNP. A recent review of the Pediatric protocols for Primary Care and Acute Care revealed that the procedure of Needle Decompression of a Tension Pneumothorax was included on the Primary Care protocol and omitted from the Acute Care protocol.

Population-focused nurse practitioner competencies were developed in 2013 by the National Organization of Nurse Practitioner Faculties. In this document, stabilization of children in emergent and life-threatening situations is an Acute Care competency. This competency is supported by a curriculum which includes the indication for and principles of
needle aspiration of a pneumothorax.

Revision of the language on the Pediatric Acute Care Standard Protocol to include Needle Decompression of a Tension Pneumothorax would more accurately reflect the current standard of clinical practice.

Upon recommendation by the Joint Committee, and approval by ABME to change the Standard Protocol, the ABN will be asked to concur with the recommendation of the Joint Committee.

On November 16, 2017, Dr. Baker moved that the Board approve revision of Pediatric Acute Care Protocol to include needle decompression of a Tension Pneumothorax. Ms. Gladys Hill seconded. Motion carried without objection.
