VIII. POLICY

A. FINAL CERTIFICATION REVISIONS ALABAMA BOARD OF NURSING ADMINISTRATIVE CODE SECTIONS 610-X-5-.09, .12, .20, and .23, CRNP/CNM – STANDARD PROTOCOLS, QA PLANS, AND PRESCRIPTION DATA FIELDS
Mr. Ingels reported that the existing Board practice requires CRNPs and CNMs to have a Standard Protocol and a Quality Assurance (QA) plan on file with the Board. Existing rules require that all prescriptions by nurses in collaborative practice bear the APN’s name below or to the side of the name of the collaboration or covering physician, a requirement that is inconsistent with some electronic prescription formats. Board staff recommends adding the Standard Protocol and Quality Assurance (QA) requirement to the rules, as well as amending the existing prescription format requirement to accommodate current practice.

On May 17, 2019, Dr. Baker moved that the Board approve, as final certification, revision of Alabama Board of Nursing Administrative Code sections 610-X-5-.09, .12, .20, and .23, CRNP/CNM – Standard Protocols, Quality Assurance (QA) plans, and Prescription Data Fields.
