

TRANSITION TO PRACTICE®

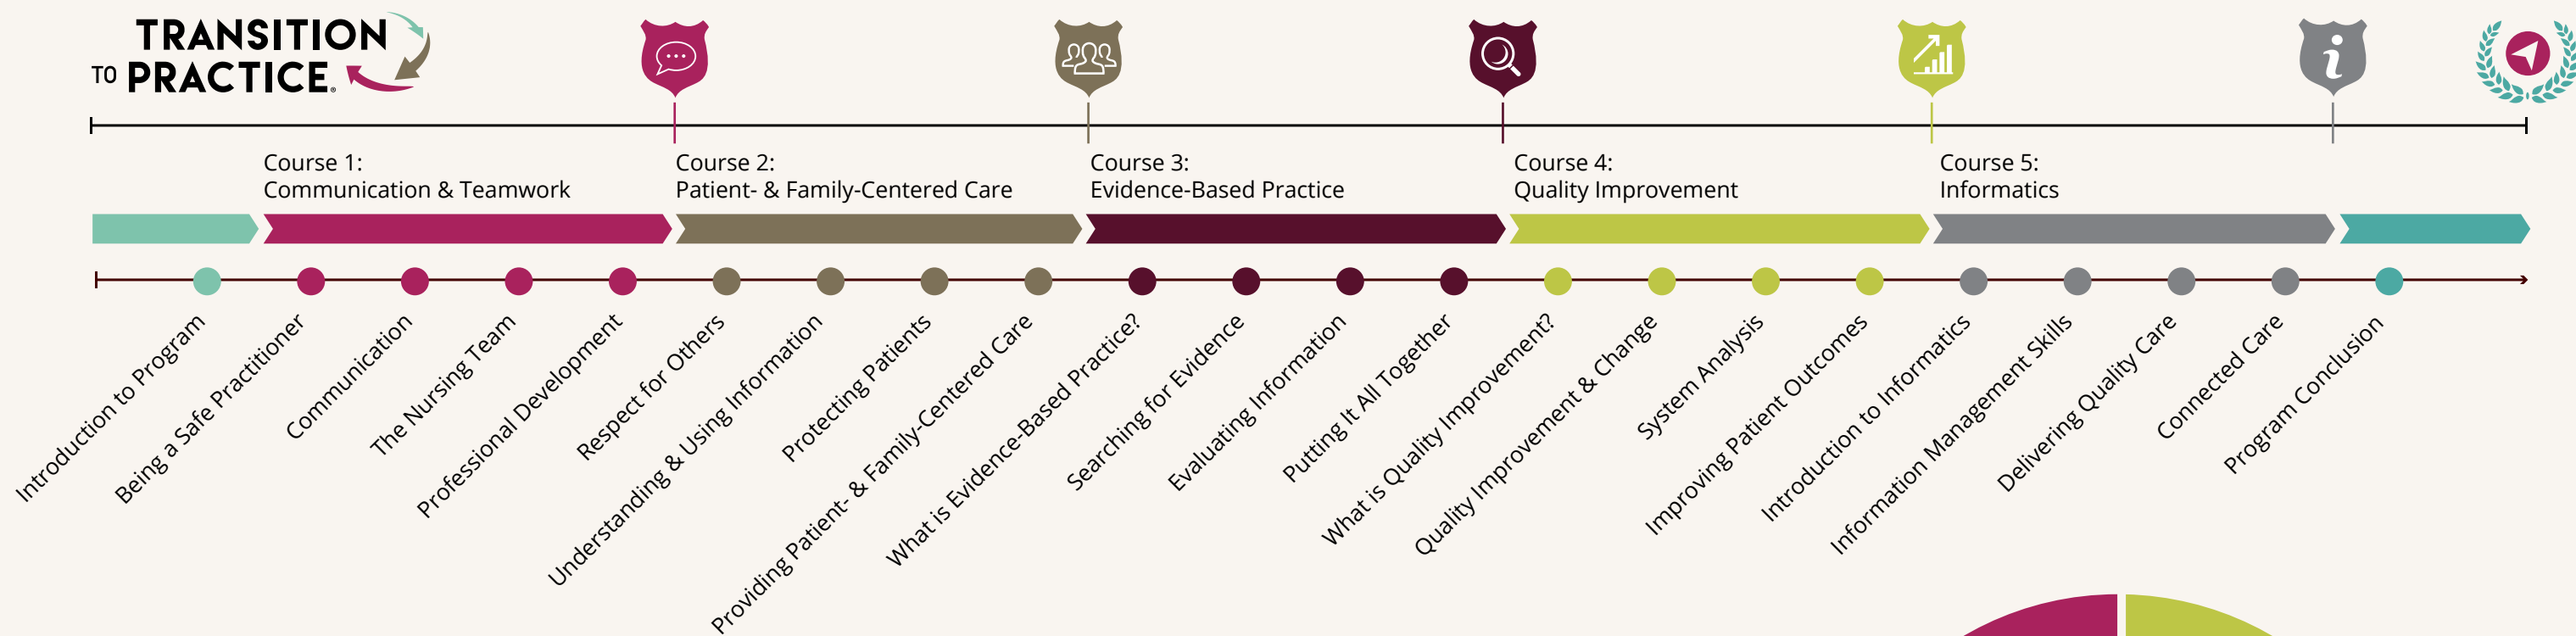

ENGAGING • EXPERIENCING • EMPOWERING

★ Our Goals

The National Council of State Boards of Nursing (NCSBN) has created Transition to Practice® with the goal of promoting public safety by supporting new nurses during their critical entry period & progression into practice.

📍 Our Journey

Evolved from the *Transition to Practice* study, Transition to Practice is designed to empower new nurses and improve safety & patient outcomes. Our approach ensures learner engagement by utilizing a proven strategy of critical thinking and interaction to achieve and sustain results.

learningext.com

- Purchase the entire program or the individual courses
- Get peer-to-peer support
- Engage with the community
- Celebrate achievements

Learning Path

Transition to Practice is a six-month program consisting of five focused courses to help new nurses reach their full potential. Courses are broken down into easily digestible lessons, designed to fit into a busy schedule.

Lesson Components

- Scenarios
- Learning
- Assignments
- Reflections
- Preceptor touch points

Methodology

A continual and proven method for learning.
