FY End 2025:

APRNs in Disciplinary Monitoring

27 APRNs

16 CRNPs

10 CRNAs

1 CNS

Suspensions

8 RN Licenses

8 APRN Approvals

Probation

8 APRN Approvals

1 CRNP Eligible to
Collaborate

4 CRNPs Ineligible
to Collaborate

Requirements in Orders specific for APRN

- Inform:
 - Collaborative/covering Physicians
 - Board of Medical Examiners, if applies for or has Controlled Substance prescriptive authority
- Return to advanced practice following treatment for substance use disorder:
 - Shall not be employed as APRN until the Board receives recommendations from the Board-approved treatment provider supporting return to advanced practice nursing. If diagnosed with a substance use disorder related to controlled substances, cannot be employed as APRN for a minimum of one year and must return to original treatment provider for evaluation to determine readiness to return to advanced practice nursing

The Importance of Monitoring

The mission of the ABN is to safeguard and promote the health, safety, and welfare of the public through licensing and approval of qualified individuals and adopting and enforcing legal standards for nursing education and nursing practice.

When a Nurse Practice Act violation occurs, the nurse may need guardrails to ensure that they obtain the oversight, treatment, or education they need to practice nursing safely.
